WATER INSTRUCTIONS WE RECOMMEND

SPRING - SUMMER

- 1st Week
 - Water every day 20 minutes Early Morning 3 am – 6 am
- 2ND - 3rd Week
 - Water every other day 20 minutes Early Morning 3 am – 6 am
- 4th Week
 - Sod should be established and thriving at this point, cut back 3 days a week 15 minutes a zone.

March, April & May – **Specialty Sod Only** (Zoysia, Celebration, Citrazoy, etc...) Water twice a day 20-minutes early morning 3 am – 6 am and afternoon 2 pm – 4 pm

FALL - WINTER

- 1st Week
 - Water every day 10 minutes Early Morning 3 am – 6 am
- 2ND - 3rd Week
 - Water every other day 10 minutes Early Morning 3 am – 6 am
- 4th Week
 - Sod should be established and thriving at this point, cut back 3 days a week 10 minutes a zone.

Lawn and ornamental

If you do not follow these instructions your sod / plant material may create root rot, brown patch fungus, excessive water also promotes weeds, etc...

Not only does the sod and plant material need the watering requirements listed above but also the material is going to require insecticide, fungicide, and fertilizer.

Reminder 90% of the time water is not the solution, depending on time of the year less water is better.

"We beautify your world"
